## Solar Energy Industries Association

### Who We Are

The Florida Solar Energy Industries Association (FlaSEIA) is a nonprofit professional association of companies. Since 1977, we have been dedicated to protecting and promoting the interests of the solar energy industry in Florida. This longevity, along with stringent contractor licensure and system certification standards, is largely responsible for consumer confidence and industry growth. Upholding the highest ethical standards, our professional members exemplify quality, safety and performance. More than 450,000 solar installations across the state exhibit our members' commitment to making solar Florida's natural energy choice.

### Become A Member

When you become a FlaSEIA member, you

- ✧ contribute to the long-term growth and profitability of the solar industry in Florida;
- ✧ commit yourself to a high standard of professional ethics;
- ✧ increase your access to critical information, advocacy, professional development and networking opportunities; and
- ✧ gain access to prospective business opportunities.

### What FlaSEIA Has Done Lately

**Legislative and Regulatory Advocacy**—Members prioritize legislative and regulatory issues annually. FlaSEIA was instrumental in garnering permanent status for the state's solar sales tax exemption. Working strategically with legislators and the Florida Department of Environmental Protection, FlaSEIA also helped promote the passage of the Florida Renewable Energy Technologies and Energy Efficiency Act. The Act provides financial incentives for solar hot water heating, solar swimming pool heating and solar electric (photovoltaic) systems.

### The FlaSEIA Advantage

- ✧ **www.flaseia.org**—The FlaSEIA website is a clearinghouse for association information. You can get the latest legislative information, download a membership application, learn about member services and keep up-to-date on national and state solar trends.

- ✧ **Industry News**—FlaSEIA's quarterly online newsletter provides information targeted to the specific needs of solar industry professionals and keeps you abreast of national and state solar-relevant issues, educational opportunities and upcoming events.
- ✧ **Consumer Hotline**—By calling 1-800-426-5899, callers receive member referrals and solar contractor licensure, technology and incentive information.
- ✧ **Business Development**—Along with member referrals, you gain advertising opportunities, networking within the industry and assistance with regulatory issues.
- ✧ **Professional Advancement**—FlaSEIA has established alliances with other construction trades including plumbing, home building and swimming pool industries. Check our website for the most up-to-date course listings.

### Use Our Consumer Services

When you take advantage of our consumer services, you

- ✧ gain access to contractor referrals;
- ✧ receive contractor licensure verification;
- ✧ are assured of member adherence to a strict industry Code of Ethics; and
- ✧ receive general solar technology and incentive information.

### Our Members

Florida is home to the country's leading solar thermal manufacturers. FlaSEIA members include these and other solar technology manufacturers, distributors, contractors and retailers who provide solar hot water heating, solar swimming pool heating and solar electric (photovoltaic) systems. research centers, consultants and utilities also are members.
